Dear Mr Jaffe

I just read a very shocking
and disturbing article in Peta
regarding forced molting of layer
hens. There really is no earthly
reason to let greed replace humanity.

Please support the petition
to ban the forced molting of
layer hens. My grandchildren
are old enough to read now,
I can not imagine justifying
a procedure like this to
them. The way we treat
our bark and little creatures
is the way we will be
treated. Angels wings
around you.

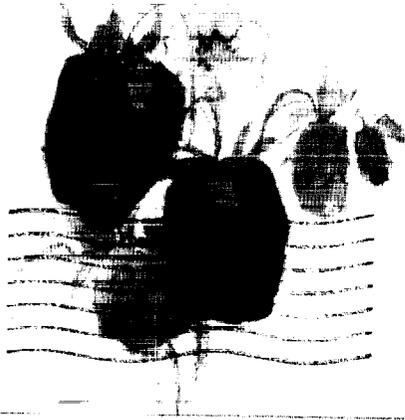

Sincerely
Joanna O
